On Tire Mileage

The Miller Tire makers, in late years, have nearly doubled their tire mileage. In their factory tests made last year no rival tire could match the Miller service. Miller treads outwore all rivals by an average Large tire users are making million-mile com-

parisons. As high as 20 rival makes are compared with Millers. Miller Tires have already won many of these tests. Large Miller dealers, making careful comparisons, find that Miller Tires increase their customers' mileage from 50 per cent to 75 per cent.

It is time to get new figures on tire mileage. Try a Miller, watch the mileage, compare it with the tire that you use opposite. Hundreds of thousands have in this way come to Miller Tires. And Millers are today the most talkedabout tires in America.

Tread Patented

Center tread smooth, with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side treads mesh like cogs in dirt.

It Is Very Interesting

to observe enthusiastic savers. We watch them as they come regularly to the bank to make their deposits. There is on their faces the smile that is peculiar to winners.

Their glory is not alone in the amount they have saved: they know that it is not always easy to save and are proud to have succeeded.

And then there is the fascination of growth! Only those who have really saved know the pleasure of watching a savings account grow.

A growing savings account is something to be proud of!
